

IDAHO WORLD.

GEO. AINSLEE, EDITOR.

IDAHO CITY, I. T.

THURSDAY, NOVEMBER 16, 1871.

AN EASY BERTH.—The important news is sent overland by telegraph that Second Lieut. Frederick G. Grant, of the Fourth cavalry, has been ordered to report to the General of the Army, and that "he will accompany Gen. Sherman on his tour of military inspection of Europe." This young sprig of the Grant family certainly has an easy and comfortable berth. Drawing pay as a Second Lieutenant in the Army since he graduated at West Point, he has not seen a single day's service for which he has received his pay out of the people's money. Immediately after leaving the Military Academy he was granted a furlough and allowed to enter the service of the Union Pacific Railroad Company, accompanying a corps of surveyors in the employ of that company, on an expedition into the mountains of Colorado, and he doubtless drew a salary from the company. Not relishing a life on the frontier he is favored with an opportunity to go on a pleasure excursion and make the tour of Europe at the public expense. We are not advised as to whether the result of his observations on the military systems of the European powers will be embodied in a report to the War Department for the information of Congress, but presume that he will detail Sherman for that duty. As his salary, which will be regularly paid him while absent on this important foreign mission, will be an inadequate compensation for the important and invaluable services he will render his country, the next session of Congress will afford an opportunity to cover the expense by adding a section to the bill, covering deficiencies in appropriations for the War Department for the past fiscal year. Lucky young Grant; you have been granted numerous favors on account of your being a scion of the reigning dynasty. Your unfortunate and humble school-mates who graduated high above you in your class, some thirty or forty in number, are condemned to camp-cots and active service, on musty rations, while you serve your country on pleasure excursions, and "trip the light fantastic" at receptions and State balls given to Sherman throughout the capitals of Europe.

SERVED HIM RIGHT.—Dr. C. C. O'Donnel, who, by reason of the absence of the prosecuting witness, escaped trial and conviction, for causing the death of a young woman named Eugenie Chauvet, in San Francisco, some time ago, by abortion, raised a militia company, in San Francisco, called the "California Rifles," and was elected Captain. He demanded his commission from Governor Haight, and the Governor very properly refused to issue a commission to a man of O'Donnel's character, whereupon the irate desecrator of Escalapius applied to Judge Morrison, of the Fourth District Court, for a mandamus on the Governor. Before a peremptory writ was issued however, Haight executed a flank movement on the valorous doctor by mustering his company out of the service, and when the matter came up for hearing the writ was denied, and the non-commissioned would-be Captain has no use for his sword or epaulets.

LOST AT SEA.—The American brig Sheleff was dispatched from San Francisco on the 22d of last June, for Callao, with a cargo of lumber, and on the 3d of July was caught in a cyclone and became water-logged. Of the crew and passengers, twelve in number, all died from exposure except the Captain, who remained on the wreck one hundred and nine days before a vessel came in sight, when he was rescued by the steamship Moses Taylor. When taken off the wreck he was terribly emaciated and almost dead through hunger and thirst. From a weight of 235 pounds he was reduced to 120 pounds. The name of the sole survivor, is Luder Hopken.

WHOLESALE DESTRUCTION.—The entire Arctic Whaling Fleet, of thirty-three ships, was caught in an ice floe, in the Arctic ocean, during the month of September, and over twelve hundred seamen were shipwrecked, but no lives were lost. The ships were valued at from forty to fifty thousand dollars each, and an immense quantity of whale-oil, whalebone and walrus ivory was lost with the vessels. Nearly the whole fleet was owned at New Bedford, Mass., and there was but little insurance on vessels or cargoes.

BEATS TAMMANY.—The New York World has made public another grand scheme of robbery on the part of Radical office-holders. It charges that Governor Scott and the carpet-bag authorities of South Carolina have issued in New York city \$20,000,000 of bonds of that State, and have negotiated a large portion of them, and put the money in their own pockets.

UNEXPECTED DEATH.—Col. David Stanton, Auditor-General elect of the State of Pennsylvania, died suddenly, at his residence in New Brighton, November 5th, from the effects of an injection of morphine under the skin, self-administered. The physicians are of the opinion that in making the injection he punctured a blood vessel.

A CANNIBAL.—A negro woman has recently been arrested in Jacmel, Jamaica, charged with having killed and eaten twenty-six children.

THE SALT LAKE IMBROGLIO.

The Salt Lake correspondent of the Cincinnati Commercial, in his letters to that paper, photographs the members of the "Federal ring," in Utah, and gives each of them anything but a good character, and exposes the villainy of Chief Justice McKean and his Federal clique in their onslaught on polygamy. He says, in speaking of the proceedings against Brigham Young: "The court which is to try him packs a grand jury to do the work of inquisition, a petit jury to try him, and comes down itself amongst the lawyers to prosecute him." The writer exposes the rascally schemes of the "office-holders' ring," and shows up the corruption of the Judges in regard to quartz speculations, as well as the many plans practiced and matured by them to blackmail Salt Lake City and the Mormon people generally; and avers that the course pursued in that Territory, instead of suppressing polygamy, will "only irritate it to renewed existence." There is only one exception we take to the sentiments expressed throughout the whole letter, and that statement we will attribute to ignorance and not malice, on the part of the writer.

In speaking of the corrupt practices of the Judges, and the results which have followed from the course pursued by them, he says, "the public morals of Salt Lake, which, up to two years ago, barring polygamy, had extorted the admiration of travelers, are nearly as bad as elsewhere in Nevada or Idaho." This is certainly an uncalled-for "fling" at Idaho. The tone of public morals in this Territory will compare favorably with that of the most enlightened and civilized section of any portion of the United States; and we object to being placed in the same catalogue with Nevada, even. Idaho, in her early days, like all new mining countries, was the theatre wherein was enacted many tragedies, owing to the presence in our midst of the crowd of lawless spirits who always flock to new mining communities, but we challenge any section of the country, east, west, north or south, to exhibit a more peaceable and law-abiding class of people than we have now in the Territory of Idaho; and when we consider the large number of Chinamen who are living in our Territory, and who are proverbially "law breakers," we think the tone of public morals in Idaho stands a little above par as compared with other and even older communities.

MONTANA.—We take the following items from our late Montana exchanges:

On Oct. 30th James McCluskey shot and killed Pat Manning, in Blackfoot. There was an old grudge existing between the parties, and on the preceding day they had a fist fight, in which Manning was whipped; and it is said that on the next day Manning threatened to kill McCluskey on sight, and that upon the two meeting McCluskey turned loose with his six-shooter and killed Manning.

The Missoula Pioneer has changed hands, Mr. Joseph Magee having sold out the office and material to Major W. J. McCormick.

A silver lode, sixty feet in width, is being developed on the Big Boulder. It is believed to be very rich.

A Chinaman who was accused of robbing a store in Henderson gulch, was caught and hung by a mob, on Oct. 31st.

The Montanian, published at Virginia City, among other decided improvements of late, is now printed by steam-power, and a daily paper has been started.

There was a general jail delivery at Helena, on the night of Nov. 2d. Five prisoners, Chas. Goodwin, Henry Smith, Henry Lewis and two road agents, Spearling and Darling, were the parties who escaped, while seven others failed to get out.

One of the three peaks at Yellowstone city, (mouth of Emigrant gulch) is 12,500 feet above the level of the sea.

A man named William Cleghorn, who was mining by himself on Nevada creek, was caved on in his claim, about ten days ago, and remained covered up for over five days before any one was aware of the accident. The mail carrier, passing Cleghorn's cabin, left his newspapers, not seeing any one around, and on returning, four or five days after, found the papers undisturbed, and on looking for Cleghorn by following his tracks in the snow to his claim, found that they ended where a bank had caved. He hastily summoned the neighboring miners and they went to work and dug him out when, to their astonishment, he was found alive, with his hip dislocated and his right leg crushed below the knee. He was uninjured about the head and body, though terribly emaciated and weak. His leg was amputated and it is believed he will recover.

A FAMILY DROWNED.—A young married couple, with their little child, went out boating on the Bay near San Francisco, a short time ago, and have not been heard of since. One of the oars was picked up the next day, and it is believed they were all drowned.

MORE FIRE.—Sixteen buildings were destroyed by fire, a few days ago, in Vallejo, California, the total loss amounting to about fifty thousand dollars. Among the buildings burned were the Postoffice and the printing office of the Solano Democrat.

CALIFORNIA RACES.—The great race at Alameda Park, Cal., November 8th, between Nell Flaherty and Tom Atchison, was won by Nell in two straight heats. Time, 1:46½, 1:46½.

GOING TO AFRICA.—Two hundred colored emigrants arrived at Norfolk, Virginia, from the interior of the State, and took passage for Liberia, November 4th.

GOOD IDEA.—The Legislature of Washington Territory is considering a bill giving the right of action, for damages, to relatives of drunkards against the vendors of liquors.

NEWS SUMMARY.

Amelia Valasco, an opposition member of the Mexican Congress from Tamaulipas, together with several other leading opponents of the Juarez Government, have been captured and shot.

The International society is rapidly gaining strength in Europe and has been found to be at the bottom of the trade strikes in Spain. A conference to devise measures for the suppression of the Society is soon to be held at Dresden.

The Greek Government has discontinued its Embassy to the United States and will recall its Minister.

Count Von Beust, the Austrian ex-Premier, has been appointed Ambassador of that country to England.

At a fire in New York city, November 8th, a falling wall buried twenty firemen in the ruins, killing several of them.

The New York election has resulted in the overthrow of the Tammany ring. The candidates of the Democratic Reform ticket were generally elected, and they carried every Senatorial District in New York city except the Fourth, which Tweed carried against O'Donovan Rossa by over 12,000 majority. The Republicans have carried the State by about 25,000 majority, and have a large majority in both Houses of the Legislature. Brooklyn elected the whole Democratic ticket, Powell being elected Mayor over Booth and Kalbfleisch by 10,000 majority.

The Illinois election resulted in a reduced Republican majority, Beveridge, Radical candidate for Congressman at large, having probably 20,000 majority. The entire Union ticket of Democrats and Republicans in Chicago, headed by Joseph Medill for Mayor, has about 12,000 majority, with seventeen out of twenty Aldermen.

In Wisconsin, Washburn was elected Governor by a majority of from eight to ten thousand over Duell.

In Minnesota, Austin (Republican) is elected Governor by a majority estimated at 10,000.

New Jersey elects Parker, (Democrat), for Governor by about 4,000 majority.

Maryland, as usual, went Democratic, though the Republicans elected a few members of the Legislature. The last Legislature hadn't a single Radical member in it.

Washburn (Radical) is elected Governor in Massachusetts by about 25,000 majority over John Quincy Adams.

Virginia is reported to have gone Democratic by about 20,000 majority, securing a large conservative majority in the Legislature.

The returns from Mississippi come in slowly, but it is believed that the Democrats have secured a majority in the Legislature.

Peter B. Sweeney, Commissioner of Public Parks in New York city, and a member of the Tammany ring, on the day of the election, sent in, to Mayor Hall, his resignation, to take effect November 20th.

The election in Little Rock Arkansas, resulted in the defeat of the Clayton clique, General Patterson, the anti-Administration candidate, being elected Mayor by a majority of two to one.

General Schofield has been assigned to the Military District of Arizona, with instructions to bring all the Indians in upon reservations, protect them while there and punish them if they leave.

A movement is on foot among New York Democrats to bring forward Charles O'Connor as their candidate for the next Presidency.

The Georgia State Senate has adopted a resolution denying the existence of a Ku Klux organization in that State, and suggesting to the Ku-Klux Committee that they summon before them as witnesses the Judges of the Supreme Court of the State.

OWYHEE ITEMS.—We take the following items from the Arlanche of Nov. 11th:

The November term of the District Court, of the Third Judicial District, for Owyhee county, convenes in Silver City, Monday, November 13th.

Superintendent Walbridge is taking a large amount of ore from the Oro Fido, north of the discovery shaft.

A. P. Minear is opening the Oro Fino, south of the discovery shaft. The mine is now yielding from ten to twelve tons of ore per day. The Ida Elmore mill is still running on tailings.

Additional ore-houses, snow-sheds, &c., are about completed on the Golden Chariot. Water has somewhat interfered with the working of the mine.

The shaft on the Minnesota is now down 185 feet, and two drifts are being run on the vein.

Mr. John Jewell, of Grass Valley, has taken charge, as foreman, of the Mahogany mine. Superintendent Minear intends to have the mine well opened before having any ore crushed.

About thirty men are now employed in the Skookum, and a large amount of ore in the yard will be immediately crushed.

Mickey & Co. are actively prosecuting work on the Empire.

Five or six hundred tons of ore from the old works of the Poorman mine is now being worked at the Owyhee Co's mill, and it is paying well.

The shaft on the Morning Star is being put down as fast as possible, preparatory to running a 200-foot drift north.

The Sands Brothers have just had a batch of ore crushed which paid thirty-odd dollars a ton.

The lower level in the South Chariot, which is being worked through the Mahogany, looks well, the ledge being about twelve feet in width.

The mines of South Mountain continue to prospect well. A toll road is being constructed from Camp Three Forks to Bullion City.

Wells, Fargo & Co. shipped from Silver City, during the week ending Nov. 11th, 10 bars of bullion, valued at \$18,739 04.

"Old Hill" is well again, and he says "Silver City is cheated out of the enjoyment of going to his funeral."

Some person "nipped" a stove from the Theatre a short time ago.

Dave Adams, an old "print," is at work in the Empire mine.

STAMPS.—The Eureka (Nevada) Sentinel says that "the deed by which Joseph M. English recently transferred the Richmond mine of this district to the present owners, had stamps on it to the value of \$2,000." Some other papers relating to the same property, filed at the same time, required stamps to the amount of \$1,482, making a total of \$3,482 in stamps used in one mining sale.

BORN:

On Buena Vista-Bar, Boise county, I. T., November 11th, to the Wife of JOSEPH BRANSTETTER, a Son.

LIST OF LETTERS

Remaining in the Postoffice at Idaho City, on the 15th day of November, which, if not called for within thirty days, will be sent to the Dead Letter Office: Banfall Emma Hall J N Underwood L E Braly F E Harrington Pat Vanskiver J F Barghog Henrich Harrison John Wagon J J Chaquette Henry Lee John Wilson Mary E Elliot J Lindley J C Wright Charles Ewan W C Moser G Senora Don Cal-Pay E Sullivan Wm Ietono Ailer Gashwilder Jos Turner D Persons calling for any of the above letters will say "advertised," and give date of list.
